

CLARESHOLM AGRICULTURAL SOCIETY HOLDS ANNUAL EXHIBITION

J. R. Watt the manager of the Exhibition in remarking on the result says that on the whole the exhibition was satisfactory. An exhibit of one hundred and fifty four horse entries (eighty seven light and sixty seven heavy) was very satisfactory looking to the high cost and scarcity of feed which has been common, and was only about thirty less entries than last year though of course away behind 1911 and 1913. As compared with the other exhibitions in the neighborhood there is more encouragement given to light horses and much interest is created in the judging of these classes while the heavy horse classes are always up to the average.

In cattle Clareholm never has gone very strong in this year. The results shown by those most interested in the exhibit is to be hoped that this state of affairs will be changed now that a start has been made with suitable enclosures.

The poultry classes this year were confined to farmers and filled fairly well. In a year or two when a suitable shed can be erected for poultry they will be classed. Mr. Watt says for the exhibit in the flock that it was the best arranged and most attractive looking exhibit of the kind ever seen at any of the shows. The vegetables and roots were numerous and attractively arranged while the Dominion Experimental Exhibit showed to great advantage in the special building. The exhibit of Grasses made by W. J. Stephen of the Agricultural School was beautifully arranged and much credit due to Mr. Stephen, who is President of the Agricultural Society, for the time he spent on this. Mr. Erickson the coal man made a start for the local people by sending away a pretty exhibit of coal. A few more such exhibits would be also. The thanks of the Society is also due to Mr. Ferguson for bringing an exhibit of Yorkshire cattle from the Demonstration Farm. For the first time a parade of live stock was attempted and while it was impossible to get many of the light horses out, which had all been judged the first day still it was a start in a feature which it is hoped will now become a regular one. The parade marked the change of the general. The Gate receipts were satisfactory there being less people there on Thursday than on the day corresponding day last year and more people on Friday than on the corresponding day last year. There was however no income from privilege to speak of.

The racing program the first day was small but the second day it was larger and there was a liveliness and go about the proceedings which was pleasing. It is a common criticism heard from neighboring farmers and local dealers that Clareholm Exhibition is not much good and that exhibits cannot be got out but that the races are better than any where else. It is quite true that the races are good but there is no use comparing the results with an exhibition where the races are not. When they are closed at the gate of an exhibition the presumption is that at least half of the persons who have been watching the general stand attractions. The purpose of Clareholm are not in any means excessive, in fact were \$10.00 less than Clareholm this year, but the reason for Clareholm having a name for good races is that the meeting is an over a good track, fenced around, with proper places assigned to ties and people and the races are well conducted and run off promptly according to rules by men who know how to run them. Owing to this the meetings at Clareholm have obtained a popularity beyond the limits of the district and when visitors do pay their fifty cents they know that they will not have to hang around all year, as they would at the deciding of three or four racing events which come off at intervals of forty-five minutes during which incompetent officials wrangle with the horsesmen.

As to the Agricultural Exhibition

generally Mr. Watt says that the prize list was small this year owing to a desire among the directors to play safe until times improve, he says however that with the loss of donations from the hotels there is not much hope of increasing the scope of the exhibition until a more liberal donation is got from the district. There should be an annual subscription list to the work of the Society (not only for exhibitions but for other work in the way of Seed Grain Fairs, Standing Fairs, Competitions and Good Farming Competitions) of about \$500.00. Without this the Exhibition will not progress.

Following were the judges of the exhibits.

Horses, A. Colquhoun, Brandon; Cattle, W. J. Carlyle, Calgary; Poultry, George Rouns and W. J. McKeen, Clareholm; Swine, W. J. Carlyle, Calgary; Grains and Grasses, Vegetables, Roots and Boys Work, S. O. Longman, Clareholm; Plants, Mrs. A. T. Leith and Mrs. Scolding, Macleod; Dairy Products, B. Lanth, Clareholm; Domestic Poultry, B. B. Bense and E. G. Barber, Clareholm.

The complete list of prize winners will be published next week. Owing to lack of space and time it has been necessary for us to do this rather than publishing it as before.

The programme for the Clareholm race meeting, which was held in connection with the Agricultural exhibition, was a small one for the first day, the results being as follows:

Two or Three, Half Mile Hairs, R. McLean, Clareholm.
B. G. Bob, Lundy, 2:12 1/2
D. McMillan, Clareholm, 2:12 1/2

Dr. G. W. Kerby Visits Clareholm

Dr. G. W. Kerby, Principal of Mount Royal College Calgary spent a day in Clareholm the latter part of this week.

He has been making a tour of the Kootenays and Crowns West, giving Patriotic addresses on the way at several points. Dr. Kerby's only son, Spencer Kerby is a Flight Lieutenant in the Royal Naval Air Service and is now at the Dardanelles, where the Air men are doing an immense amount of work spotting for the guns, besides raids and bomb dropping.

Dr. Kerby is well known as the author of "The Broken Trail" as well as for his educational work and interest in young people. As head of Mount Royal College he has helped to make that institution one of far reaching influence.

The College Curriculum covers a wide range of studies and is designed to meet the practical needs of the young people of today. There is a residence for girls and one for boys and some eighteen teachers and instructors on the staff. The Business College courses in bookkeeping, shorthand and typewriting is in charge of Prof. Gordon Bennett, one of the leading experts in the country.

The Academic Courses are offered in the following departments: Fine Art, Music, Expressions, Physical Culture, Dramatic Art, Domestic Science.

Parents who send their sons and daughters to Mount Royal College can be assured of every safe guard being thrown around them.

Rev. J. M. Harrison Passes Away at Summerland B. C.

It is with deep regret that Clareholm people and especially the friends and members of the Methodist church learn of the death of the Rev. J. M. Harrison which occurred at Summerland B. C. last Sunday afternoon.

J. M. Harrison was born sixty five years ago, at Ridgeway, Ontario, where he received his early education in public and high school. He entered the Methodist church as a probationer and later entered that is now the Victoria College, Toronto, of which he was selected as the first president.

His home was situated at Ridgeway from 1880 to 1892 and later at Medicine Hat. When the Manitoba conference was divided up into three separate conferences viz. Manitoba, Saskatchewan and Alberta, Rev. Harrison joined the Alberta Conference and became its first president.

He was stationed for some time at Lethbridge and from there he went to Macleod. Four years ago he became pastor of the local Methodist church, where he was always held in very high esteem.

Parents who send their sons and daughters to Mount Royal College can be assured of every safe guard being thrown around them.

HON. ROBERT RODGERS DEATH KNELL SOUNDED

By H. F. G.

The good guests at the Riel Club apprehend that the Manitoba election is the political death knell of the Hon. Robert Rodgers. They may be wrong, but it looks odd the leaders were ready to carry him out in order to let R. B. Bennett in.

The fault found with the Honorable Robert is that he did not live up to the specifications. A Wicked Father whose wickedness is unsuccessful could not expect to flourish like a Green Bay tree in a Government which is disposed to be lenient of his work. An election sized when it put the truck over better than he did in Manitoba is hardly worth keeping. Almost any man can bring about a disaster, but it takes a cunning man to let one off.

Extenuating circumstances for the Hon. Robert are to be few and far between. Premier Borden sailed away to England to collect glory and the freedom of great cities, leaving the Minister of Public Works with a free hand and a fair field. The Premier did not want to be bothered with world duties. All he asked was results. If the Hon. Robert was a wizard, here was a chance to prove it. After four months of concentrated effort, the Hon. Robert not only failed to bring the goods, but let loose a landslide. What kind of a wizard is that, eh, what?

Of course there are plenty of excuses. For instance, the Lieutenant Governor did not exercise a restraining influence. For another instance, the election machinery had passed in to the hands of the enemy. But ex- cuses do not tell what his colleagues ask of the Minister of Public Works. He is the greatest fighter, the chief dealer in human waste for the conservative party, and what they demand of him is to get it done. As an election ward he has turned out a great flop. He had no more right to get jumped in Manitoba than General Von Kluck had to lose Paris. In short, what is what General Sherman said, he was, and defeated generals can make no excuses that will be accepted.

An utter failure, the Honorable Robert put up a very brilliant and strenuous campaign, although his friends refused to look at it in that light. As soon as he is back, old, he will be a man of great strength of character, powerful will and unending work.

His death was kindly referred to by the Hon. Robert as a "great loss" to the Methodist church and prayers were offered for the comfort of the family and the congregation here sent a telegram conveying sympathy to Mrs. Rodgers and daughter at Summerland, B. C.

The deceased leaves a widow, two daughters, one son, and a host of friends to mourn his loss.

International Irrigation Congress to be held in California

Mayor N. G. Holmes this week received the authority from the International Irrigation Congress, to appoint five delegates from this district to the twenty-second annual meeting to be held in California this year as follows: J. M. Harrison, September 12 and 13; J. M. Harrison, September 13 and 14; J. M. Harrison, September 14 and 15; J. M. Harrison, September 15 and 16; J. M. Harrison, September 16 and 17.

Any one wishing to attend this Congress should see Mr. Holmes and receive the proper credentials and go as a delegate from this district.

This year the Congress shall emphasize "Climatic and Land Settlement." "Financial Factors affecting Irrigation Development," "Irrigation methods and results," "Reclamation policies," "Problems of Irrigation Engineering," "Irrigation laws and Legislation," "Rural credits and marketing," "Water, soils, crops, farm business and the future."

One day in each city will be devoted to an excursion through the irrigated districts, free to delegates.

Wm. G. Moffatt and Leonce Clark left yesterday morning to spend a couple of weeks holidays at Banff.

out "to hang on to the Girls," but the people of Manitoba had other ideas where it ought to be hung. To change the figure, they brought up their forty-two centime gun and it took fire.

The fourth and last phase of the campaign was the eleven-hour repentence of the Conservative party and the purse-driven snow platform they put together. They lost the Roblin crowd out faster than the wind did Jumbo, but all these good works came to late. The Manitoba people took as much as they could in the platform as they did in the corporation lawyer, pious and rich, who had been temporarily detached from Federal politics as the leader of Gidson's band. It was a matter of comment that neither Sir James nor his lieutenant, Mr. Sharpe, were what you might call genuine altruists. They had not stepped the substance for the shadow. Sir James having been promised the Lieutenant Governorship and Mr. Sharpe, one of the time vicar places in the Senate. As they stood to gain, sir or lose, Manitoba had no competition about handing it to them good and plenty. The leader went down with the tank and a slight scratch to the head. The "rank" phrase and Sir James and his lieutenant will presently enter into their rewards being much better than anything a party lost in the wilderness can offer them.

From all of which it appears that the Hon. Robert fought a stubborn battle. He is no rougher of his that the stars were against him. When the dam breaks no one can hold the flood back. It's too big a job even for Bob Rogers. Incidentally most of his hopes were swept away by the defeat. What Winnipeg did to his candidates beats anything in the way of stoning that decision ever did to the prophets.

Leslie, where he might have expected to lay his head, turned out equally uncomfortable. As a Manitoba politician, it looks as if the Hon. Robert might have no home left. It will be the Hon. Robert's duty to regret many things in his report to Premier Borden. One thing he will regret is that his ambition to become Hon. Commissioner of Industries was glimmering, but he will probably leave that out of his report. Another regret is that he should have to leave his home in Manitoba. He will not regret that he should have to leave his home in Manitoba. He will not regret that he should have to leave his home in Manitoba.

There is really no reason why Manitoba should have more than one name in the Dominion Cabinet and as Dr. Roche is a quiet, inoffensive and useful statesman, who has never done anything, and therefore makes no remarks, he will perhaps be enough. People who put two and two together have not failed to notice the two who went together to Ridge Lake—Premier Borden, there has R. B. Bennett been asked to make the appointments. Rumor has it that Premier Borden is grooming R. B. as Hon. Rogers' successor. The member for Calgary has many advantages. He is young, full of energy, has a high degree of eloquence, has been a leader for the C.P.R. and enthusiastically has the railway situation at his finger and thumb. He has no ambitions to the house of Commons and he is rich enough to have a man's and his political past is comparatively unspotted. Moreover, he would present Alberta and he that extent would equalize the distribution of Cabinet Ministers in the West.

The member for Calgary signified his intention to the house of Commons by leading a rebellion against further gifts to the C. N. R. and it looked for a time as if he was going to upset the cart. Having shown what he could do if he wanted he became suddenly and eloquently silent and has not renewed the struggle since. Fortune brushes him with her wings.

Two New Directors for the Union Bank of Canada

The Union Bank of Canada' with Branch office in this city, the president of which is John Galt, of Winnipeg, announces the election of two new directors. These directors will take the place of two gentlemen well-known in Canada, and for some years connected with the bank, who recently passed away, namely, E. E. A. Du Verrier, K. C., of Toronto, and the late Hon. S. Barker, P. C. M. P., of Hamilton.

The two new directors are Edward William Hume Blake, B. A., of Toronto, and R. O. McCulloch, of Galt, Ont. Mr. Blake is a son of the late Hon. Edward Blake, of Toronto. Mr. Blake was called to the Ontario bar in 1888, but is not now in practice. He is identified with important interests in Toronto, where he has spent his life, and is well-known to leading business men in all parts of Canada.

Mr. McCulloch is a son of the late Hugh McCulloch, of Galt, Ont. He was admitted to the bar in 1888, and is in active practice as a barrister at Galt, Ont. He is secretary treasurer of the Galt, in that city. He was formerly president of the Galt Board of Trade, and chairman of the parks commission. He is a member of the executive of the Canadian Manufacturers' Association, with which he has been closely identified. In sport, Mr. McCulloch has taken much interest, especially in cricket, and some years ago published, with J. E. Hall, a volume entitled "Sixty years of Canadian Cricket".

The Union Bank has been for many years very intimately bound up with the financial life of Western Canada. It has assets now exceeding \$80,000,000, and it has many branches in all the western provinces, with an equally strong connection in the east, where the head office was for many years located.

MARRIAGE DAY OMENS

Every bride, of course, observes the command to wear "Something old, something new, something borrowed, something blue" on her marriage day.

But she must be equally careful not to open a telegram on the wedding day before the ceremony, or try on her wedding ring. To do so is considered to be really tempting fate.

The bride who sees a spider on her wedding dress should rejoice, not scream, as it is considered a very lucky omen.

To drop the wedding ring is extremely unlucky, and should the bride's carriage encounter a funeral she should turn back and start again, or had luck is invited.

No bride must entirely desert herself for the wedding, and never must she make her own wedding cake.

On no account must she and the bridesmaid meet before they meet in church on the nuptial day, and unless had luck is to follow, the bride must step with her right foot as she leaves the sacred edifice.

WHO'S WAR?

It has been said by some that this is not Canada war--let England fight her own battles, the Monroe Doctrine will protect us, etc.

Those who think and talk like this utterly fail to understand the situation, possibly some do not wish to understand. The war is not England's it is the British Empire's war, of which England is but a small, though by no means insignificant portion. Canada is as much a part of the great British Empire as is England, Scotland, Ireland, Wales and the war taken up by Britain is as much our war as it is England's.

Though Canada was not called into council before the war started, full reliance of absolute support was placed by Britain on the outlying parts of the Empire, and that confidence, so far as Canada is concerned at least, will not be misplaced.

Canada has already sent many of her sons to the battle fields, many more are in training, and yet many

thousands more may and probably will be called to go forward.

They are fighting for home and country--their home and country Canada. How long would it be, were the provinces of the British (English if you like) left without, before Canada would be overrun by hordes of German soldiers, with all their paraphernalia of criminality, murder, rapine and violence? And with Canada in German hands the scenes enacted in Belgium would fade into insignificance before the horrors that would perpetrate here. Canada would become the most oppressed German colony on earth.

How far the Monroe Doctrine of our cousins to the south of us would protect us is doubtful. The participation of the United States in the war would probably mean civil war and the Federal government would have its hands full looking out for its own. The U. S. is even less prepared for war than was Great Britain in August 1914.

The war is Canada's war, and we as loyal Canadians and Britishers must be prepared to make yet larger sacrifices in men, money and time in order that the Empire to which we are proud to belong may be free from the menace of the dreadful Prussian. --Insistat Province.

The Armenians.

Armenia is a country of strong contrasts, of opposite extremes of heat and cold, light and shade, drought and moisture, and contains many mysterious waiting solutions. The Caucasus is still in doubt as to what branch of the great European family the Armenian people belong to. The philologist has not yet classified their language. The antiquarian knows next to nothing of their early history.

Cynical Definitions.
Wife--John, dear, define a philanthropist. Husband--A philanthropist, so he is a man who gives away other people's money. Wife--And what's a philosopher? Husband--A philosopher is a man who wears wide trousers, has the tasteless from which his neighbor is suffering--Illustrated Bits.

Bill Attire.

The first silk dress was worn by a lady of the French court in 1500. The first pair of silk stockings adorned the ankles of Henry II. of France in 1500.

The Awful Alternative.
Kaiser--Jonesy, you're doing night work. Rucker--Yes, he has to get the children's examples or else write their answers--New York Sun.

BUTTER WRAPPERS

Must Be Printed or Branded
According to New Dairy Act

Our facilities for the printing of Butter Wrappers are equal to any found in the province. In prices, considering the quality, we are the lowest. Unless the cheaper grades are desired our prices are always for wrappers made of the best grade vegetable parchment paper, printed with Special Brine Proof, Non-poisonous Butter Wrapper Ink. We can supply the cheaper and imitation grades but we do not recommend them because they do not give the best satisfaction.

THE REVIEW
"Printers of Quality"

When You Travel.

Don't wait until you reach the station, a few minutes before it is time for the train to start, before you find out the time for starting, arriving at your destination and the time of connection. Other passengers who to take the train and must buy tickets. And don't argue the question of the price of your ticket with the ticket seller. The price is settled by the managers and directors of the road if the price is unjust, address a communication to them and stay at home till the price is satisfactory or pay it and keep still.—Exchange.

Rattlesnakes.

Advancing civilization is fast diminishing the rattlesnake on the American continent. There are said to be twelve species and thirteen varieties. While the poison of this snake is usually fatal to man, it never attempts to strike unless it is molested.
